Subject : **ICAO Technical Cooperation Products and Services**

Dear Madam/Sir,

1. ICAO's coordinated response in supporting Member States in their COVID-19 recovery efforts, and beyond, remains a priority. In addition to the various guidance material, tools and resources made available through the [COVID-19 Response and Recovery Platform](#), ICAO's Technical Cooperation Bureau (TCB) is providing States with a diversified and accessible portfolio of products and services to assist their effective implementation of ICAO Standards and Recommended Practices (SARPs) and COVID-19 related capacity-building efforts.

2. I wish to bring your attention to the various services and products provided by TCB. From the recruitment of subject-matter experts needed to support your newest aviation needs, to procurement of the latest technologies and equipment, training of the current and next generation of aviation professionals, as well as project management capabilities, ICAO's technical cooperation services are continuously enhanced to ensure you are provided with the latest know-how to support your aviation projects.

3. As such, I invite you to:

- download the TCB Portfolio of Products and Services by clicking on the following link: [TCB Portfolio.pdf \(icao.int\)](#).
- visit the ICAO Implementation Packages (iPack) webpage to view the latest iPacks available to support your COVID-19 recovery efforts and other ICAO SARPs related activities: www.icao.int/ipack.

4. ICAO's Technical Cooperation team remains available to assist your State in ensuring a coordinated and aligned global approach to reconnect the world post-pandemic.

5. You may contact TCB through tcb@icao.int or through the regional technical assistance focal person Mr Sarantis Poulimenakos (spoulimenakos@icao.int).

Yours faithfully,

Elkhan Nahmadov
Deputy Regional Director
European and North Atlantic Office
